

Greg Nevison

Greg is one of 5 members of the company's senior executive team that manages the operations of the organization. In this role he provides leadership to the Deltera Construction Group at Tridel and is responsible for all site construction management and estimating for all projects. Greg also oversees all of Deltera's general contracting and construction management services provided for external clients. Current clients include Government agencies, institutions, pension funds, large real estate public companies and privately held rental portfolios. He oversees construction projects in the hundreds of millions of dollars and a team of the most experienced high-rise residential construction managers in the industry. Greg also provides leadership and direction for the company's sustainability initiatives and provides valuable advice in assessing new site acquisitions as well as input during preliminary design development of all new projects.

PROFESSIONAL PROFILE

Greg has over 30 years of experience in managing construction activities for residential multi-unit developments in the Toronto Area and joined Tridel in 1986. Over his career Greg has advanced in successive leadership roles and is today the Executive Vice President of Construction. In 2014, Greg was awarded Canada's Clean50 – Outstanding Contributors to Clean Capitalism for his work in collaborating with Tower Labs at MaRS to drive Tridel's evolution as a green building leader.
