

Habitat for Humanity GTA brings volunteers and communities together to help working, lower-income families build strength, stability and self-reliance through affordable homeownership.

## It starts with you

Everyone deserves a safe and decent place to live. People in our community partner with us to build homes for families in need of decent, affordable housing.

## Building homes

With the help of volunteers, we build quality homes that provide a solid foundation for families to build better, healthier lives for themselves and their children.

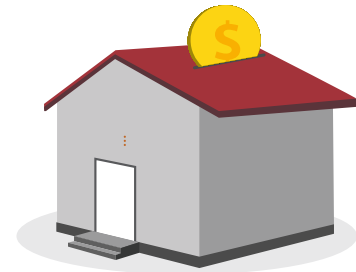

## Fundraising

Funds are raised to build Habitat homes through cash donations, ReStore sales, and mortgage payments from families, which are reinvested back into the organization to build more homes.

## Affordable homeownership

Habitat homeowners purchase their home from us at fair market value. Partner families pay an affordable mortgage, and make payments that are no more than 32% of their household income. They also contribute 500 volunteer hours of sweat equity with Habitat.

## Habitat homeowners

Families that purchase Habitat homes are working, lower-income families. They go through a thorough approval process with selection based on housing need, income eligibility and willingness to partner with us. Habitat homeowners participate in a first-time homeowner training program which we facilitate.

## Building futures, strengthening communities

There is a direct correlation between Habitat homeownership and the health and well-being of families. Children see improvements in grades, it relieves financial stress, and parents and children feel safer in their homes and live healthier lives. We build more than just homes, we build healthy and safe communities.
